## YOUR MARKET IS HERE

### Why Bangladesh?

Bangladesh, one of the most important countries in South Asia, has 151.6 million people in 147,570 square km surface area, the highest population density in the world. It is endowed with fertile land, abundant natural resources and cheap labour force. Bangladesh offers beneficial environment and conditions for investment. For example, Bangladesh has race-harmonious society which seldom occurs serious conflicts both at home and abroad. It is the friendliest country for investors, with trainable, enthusiastic, diligent and inexpensive labors. Furthermore, the sea and aerial transportation is very convenient hence it is an ideal site of international trade. In order to accelerate the economic development, the Bangladesh Government is keen on exploring foreign investment. The Government has announced a number of financial as well as non-financial incentives including tax holidays, unhindered repatriation of profits, withdrawal of non-tariff barriers in all respects. Bangladesh also follows a very liberal and open import trade regime. It has a stable currency and the rate of inflation is also low. Although the GDP is still low, but the most important is that there are many bourgeoisie who have certain purchasing power. Following the steps of economic development, they have become stronger and more competitive. Thus it is an important consumptive market which full of business opportunities.

### Present Status of Plastic Industry in Bangladesh

Plastic Industry of Bangladesh are mainly engaged in manufacturing of different products like PVC Pipe, Garments Accessories, Hanger, Poly Bag, Polythene Bag, Plastic Household products, Jute and Textile Spares, Toys, Plastic Waste Recycling, Computer Accessories, Plastic Furniture, Poly Propylene Woven, Flexible Packaging and many others. Total Plastic Raw Materials Import is about 4,092,95.47 MT (Inbond + nonbond import) per annum and per capita plastic consumption is 3.4 kgs. Import of plastic resin is increasing by 10% per annum and the domestic demand is also growing at the rate of 20%. This confirms that plastic is a material of choice and is used in all sectors of the economy such as infrastructure, construction, agriculture, consumer goods and telecom as well as in Packaging. For export government provides duty free import of raw materials. At present plastic products (including Woven Sector) worth at about 15000 Crores taka are being produced and marketed locally. On the other hand, plastic industries has been successfully exporting many products to many countries in which about 2000 crores taka in the form of deemed export and about 600.00 crores taka in the form of direct export. In the financial year 2010-11 Export was 68.76 MUSD and in the year 2011-12 Export was 90.10 MUSD which shows increasing tendency. On this ground, this year 2012-13 Export target is fixed 119.95 MUSD where the last year target was 84.27 MUSD (MOC Source). Plastic goods are mainly exported to USA, CANADA, UK, JAPAN, AUSTRALIA, FRANCE etc. Export growth of this Sector is increasing substantially.

Investment Policy of Bangladesh is now free and open for foreign investment. Bangladesh gives most attractive Packages for Foreign Direct Investment and FDI is increasing attractively.
